the difference is in the details

Every Clopay wood door embodies our commitment to timeless design, attention to detail and craftsmanship, with the warmth and character no other material can match. Each door is designed and built to create a unique and artistic addition to your home.

The uniquely designed drip cap eliminates water infiltration into the groove of the face material, making the doors more durable and longer lasting.

Clopay uses precision dowel hole boring machinery to ensure precise alignment with rails and stiles for a stronger and more durable garage door.

Mixed Cedar

skillfully crafted

Handcrafted from only the finest wood species and harvested from sustainable and naturally fallen forestry, Clopay wood doors are designed and built to last. Featuring premium quartersawn lumber that provides a higher quality and more consistent appearance. Clopay uses an industry leading factory finishing process, building quality in at every stage.

peace of mind

Our meticulous attention to detail, coupled with the finest craftsmanship in the industry, results in long-lasting beauty and durability.

RESERVE® WOOD

CUSTOM

Working from a professional drawing or just a sketch on a notepad, Clopay can create the doors you've only imagined, with windows or without, in woods like Knotty Alder, Spanish Cedar, White Oak, Ironwood and African Mahogany. Each Reserve® Wood Custom garage door is handcrafted from the material of your choice using your precise specifications. And since these are upward-acting doors, operation is simple and convenient.

YOU DREAM IT, WE BUILD IT

- Working from a professional drawing or just a sketch on a notepad, Clopay can create the perfect door for you.
- Unlimited custom designs, unlimited wood species and a wide variety of stain and finish options create a one-of-a-kind door. Custom stain and paint colors also available.
- Specialty woods, such as Ipe or Sapele Mahogany, can also be used to build your dream door. The canvas is yours!
- Doors can be built to have a convenient upward-acting operation or an authentic swing-out operation.
- Handcrafted 5 or 4-layer wood construction with polystyrene insulation provides a durable and energy efficient door. R-value 5.9*. See page 19 for construction illustration.
- Premium grade hardware, rollers and track assure smooth, quiet, long-lasting operation.
- Unique one-piece drip cap design keeps water from flowing behind grooved overlays for improved durability.

*Calculated door section R-value is in accordance with DASMA TDS-163.

RESERVE® WOOD

LIMITED EDITION

Distinguish your home with Clopay's Reserve® Wood Limited Edition garage doors, a line of eight insulated wood door styles built with exacting detail and craftsmanship by skilled artisans, using our proven 5 or 4-layer construction method for exceptional beauty, durability and energy efficiency.

DOORS THAT TAKE YOU TO A MORE BEAUTIFUL PLACE

- Handcrafted 5 or 4-layer wood construction with polystyrene insulation provides a durable and energy efficient door. R-value 5.9*.
- Built with a swing-out appearance and convenient upward-acting operation.
- Windows available in true divided or simulated divided window designs with clear glass are standard. Many glass options are available. See page 47 for options.
- Handcrafted, coped overlays are standard with true divided window designs. Non-coped overlays are standard with simulated divided windows.
- Heavy-duty hinges, rollers and track provide smooth, quiet, long-lasting operation.
- Unique one-piece drip cap design keeps water from flowing behind grooved overlays for improved durability.
- Vinyl weatherseal with optional aluminum weatherseal retainer helps seal out the elements and protect the bottom of the door.
- All doors can be factory primed, finished painted White or factory stained. See pages 40–43 for staining options. Custom stain and paint colors also available.
- Doors come standard with spade lift handles and step plate. Optional decorative hardware shown on page 44.

*Calculated door section R-value is in accordance with DASMA TDS-163.

RESERVE® WOOD

MODERN

Clean lines and simple forms let the beauty of natural wood stand out. Clopay's versatile Modern garage doors let you mix materials, shape and tone to create a stunning contemporary garage door that blends beautifully with other woods and materials on your exterior.

CONTEMPORARY BEAUTY

QUALITY CRAFTSMANSHIP

- Handcrafted, 4-layer wood construction with polystyrene insulation provides a durable and energy efficient door. R-value 5.9*.
- Built with a sleek contemporary style and convenient upward-acting operation.
- Offset Window models feature a variety of short and long window options that come standard with clear tempered glass. Other glass options include frosted and obscure. See page 47.
- Accent Strip models feature decorative flush aluminum accent strips to provide a beautiful contrast of materials. The result is a look that is modern as well as elegant.
- Heavy-duty hinges, rollers and track provide smooth, quiet, long-lasting operation.
- Vinyl weatherseal with optional aluminum weatherseal retainer helps seal out the elements and protect the bottom of the door.
- All doors can be factory primed, finished painted White or factory stained. See pages 40–43 for staining options. Custom stain and paint colors also available.
- Doors come standard with spade lift handles and step plate. Optional aluminum grip handles and additional decorative hardware shown on page 44.

WOOD DOOR

— options —

Enhance the curb appeal of your home with our numerous material, paint and stain options. Choose decorative hardware that coordinates with other elements of your home and specialty glass options to create that one-of-a-kind look.

WOOD SPECIES & MATERIALS

*Reserve® Wood Limited Edition
Design 5 with REC14 Window Design*

There is a variety of materials to choose from when selecting a wood door. Use these helpful tips to guide your decision and ensure the long-lasting beauty of your Clopay wood door. If you live in a humid or rainy climate, consider a Cedar or Redwood door for its built-in durability and resistance to varying climate conditions. If you plan to paint your door, Extira® panels offer a smooth, grain-free surface for a professional quality finish. Want to match an existing stain, a Hemlock door is the best choice. If you live in a coastal region and need a door wider than 10', the local building code requirements may mandate a door with a Hemlock rail and stile construction. If you have, or are installing, Redwood or Cedar siding on your home, consider a matching wood species for your door for a cohesive look.

WOOD SPECIES

Wood Property	Hemlock	Meranti	Cedar	Redwood	Fir	Extira®	Luan	Breckenridge®	Hardboard
Color Consistency	***	***	* ³	**	***	***	**	**	***
Dimensional Stability ¹	*	**	**	**	**	***	***	***	**
Strength	***	***	**	**	***	N/A ²	N/A ²	N/A ²	N/A ²
Stainability	***	***	***	***	***	N/A	**	**	N/A
Weatherability ⁴	*	**	***	***	**	***	**	**	*

* Fair ** Good *** Excellent

¹ Dimensional stability refers to a material's resistance to expansion and contraction during environmental changes. A wood that expands and contracts to a greater degree (such as Hemlock) has less dimensional stability. This property affects the panels of the door to a much greater degree than the rails and stiles.

² Available only as a panel material and does not contribute to the overall strength of the section.

³ Cedar color can vary significantly, but is not considered a detriment. If desired, Cedar can be ordered as Light, Dark or Mixed color.

⁴ Weatherability limitations are stabilized with proper care and maintenance. These limitations are influenced by environment and should be considered prior to purchase.

 <p>Redwood</p>	<p>Redwood offers a characteristic rich red to pink color throughout the heartwood, while sapwood is nearly white. Clopay constructs the doors using only the finest heartwood (as opposed to soft sapwood) for their doors, because it contains a grown-in resistance to decay and insects that is present throughout the entire piece of wood. Redwood contains tannic acid and requires the use of a tannin-blocking primer to avoid discoloration when it comes into contact with moisture. Reserve® Wood doors and Classic™ Wood raised panel doors are available in Redwood.</p>	 <p>Light Cedar</p>	<p>Cedar withstands the natural elements, making it an ideal wood species for a garage door in any climate. Suitable for staining and painting, natural Cedar exhibits a wide variation of grain patterns and color, from nearly white to pink to dark brown, often within the same board. Cedar also contains tannic acid, and requires the use of a tannin-blocking primer to avoid discoloration when it comes into contact with moisture. Reserve® Wood doors and Classic™ Wood raised panel doors are available in Cedar.</p>
 <p>Hemlock</p>	<p>Hemlock is an economical wood choice for all types of homes. The unfinished wood is a yellowish-white color with a consistent tone and grain. Hemlock is the strongest wood species in the Clopay line and it is inherently rot-resistant. However, Hemlock has a low resistance to environmental change and will exhibit a greater amount of expansion and contraction as compared to other species in the Clopay line. In certain parts of the country, wood WINDCODE® Doors are available only in Hemlock to meet specific building code specifications due to its strength.</p>	 <p>Dark Cedar</p>  <p>Mixed Cedar</p>	
 <p>Meranti</p>	<p>Meranti, a member of the Mahogany family, offers a characteristic reddish-brown coloration with an even, consistent grain, allowing it to be easily stained. Meranti is a strong wood and can be compared to the strength of Hemlock. Clopay offers Meranti in the Reserve® Wood Custom, Limited Edition and Modern doors.</p>	 <p>Fir</p>	<p>Douglas Fir ranges in color from yellowish-tan to a light brown. It has a straight grain pattern which may contain some waves or spiral designs and has a medium to coarse texture. Douglas Fir is known to be dimensionally stable and strong throughout environmental changes. Clopay offers Douglas Fir on the Reserve® Wood Custom, Limited Edition and Modern doors.</p>
 <p>Extira®</p>	<p>Extira® material is used on Clopay's Reserve® Wood Limited Edition doors. Extira® is a composite wood product made of wood fibers glued together with a water-resistant resin. It is used as face material and cannot be stained. Extira® is a great option for a painted door.</p>	 <p>Breckenridge®</p>	<p>The face of the Breckenridge® panel has an elegant rough cedar appearance and is manufactured using a select import hardwood veneer from the Okoume species. The inner core of the panel is made from strong western softwood veneer and a fully water resistant phenolic resin. Breckenridge® is offered as a paint or stain grade option in Clopay's Classic™ Wood doors.</p>
 <p>Hardboard</p>	<p>Hardboard is a composite wood product made of wood fibers glued together with resin, heat and pressure. It is used as a recessed panel material in Clopay's Classic™ Wood doors and can be painted.</p>	 <p>Luan Plywood</p>	<p>Luan plywood is an economical alternative to wood panels that can be stained or painted. It is used in Clopay's Reserve® Wood doors and as a panel material in Classic™ Wood doors. Luan is also known as imported hardwood.</p>

FACTORY PAINT FINISH

*Reserve® Wood Limited Edition
Design 3 with SQ23 Window Design*

Sherwin-Williams® SuperPaint® is formulated with Advanced Resin Technology. It offers outstanding adhesion and color retention, resisting frost in cold conditions and fading, chalking, peeling and blistering in hot and humid conditions.

Wood Base

Latex Primer

White Latex
Exterior Paint First Coat

White Latex
Exterior Paint Second Coat

- Factory painted Clopay wood doors have one layer of primer and two coats of White exterior latex paint.
- Additionally, doors can be painted by the consumer with a high-quality exterior latex paint to match the home's trim.
- Door panels are sealed with a paintable caulk to resist moisture.

With Clopay's factory finish White paint option, your wood door arrives primed, painted and ready to install. We've eliminated the extra expense of hiring a contractor to finish the door on-site and the added worry that the job will be done right. You have peace of mind knowing that the door is stored and finished according to Clopay warranty guidelines for a durable, flawless, vibrant finish that is worthy of the most discriminating close-ups.

Note: Differences in grain and color variations are indicative of natural wood and are not considered product defects. Some variations in stain penetration may occur between materials from which the door is constructed (i.e. plywood panel vs. wood frame).

Printed color shown here may vary from actual product colors.

See your Clopay Dealer for the most accurate color sample.

With Clopay's factory stain finish option, your wood door arrives beautifully stained and ready to install. Clopay uses the highest quality methods and materials in the factory finishing process, leaving doors with an elegant and durable furniture-quality satin finish. Available in nine stain colors that complement most home trim and entry door colors. Doors are finished with one layer of PPG ProLuxe™ Cetol® 1 stain basecoat and two layers of Cetol® 23 Plus resin top coat. All factory finished doors are backed by Clopay's industry-leading, two-year warranty, giving you peace of mind knowing that the door is finished according to Clopay warranty guidelines.

Finishing, Maintenance and Care

Proper care and maintenance are imperative to the appearance, longevity and performance of a Clopay wood door. The door must be properly finished prior to installation for the warranty to be valid. If the door is not painted or stained by Clopay, it is required that the door (inside, outside and all edges) be primed and painted with a high-quality exterior paint or stained with a penetrating stain that is mildew and UV resistant, and water repellent. The door may need to be stained or painted every one–two years depending on the exposure to sunlight and moisture. Inspect your Clopay wood door every six months to ensure the finish has not deteriorated. Complete finishing and maintenance instructions are provided with the door and are also available online at www.clopaydoor.com.
